THE AUDITORIUM.

There is an all around good bill of five acts and four reels of motion pictures appearing here the first three days of this week, and all those who have seen it have nothing but praise to offer for the well baianced bill. The show opens with Kellem & Klark in a novelty musical number which includes the playing of bells, horns, piano, etc., interspersed with a line of funty talk between the Dutch and coon moticlass. The Fire-Fly company is next in order, and these three people have a very funny talking act with the scene laid in a small town railroad station. Every line in the sketch is funny and it is a very well handled act Kola, the frog man, is a wonder in als contortion work and startled all who saw him. A Night on a Wharf, the comedy singing sketch presented by Brown, Delmere & Brown, won much applause at every show and these three fellows were voted a spiendid singing irio. Harry & Mae Mathews closed the show with a novelty globe rolling act which is a winner. Today's pictures are Adrift, a beautiful Eciair drama in two reels, with Barbara Tennant, and Pittalls, with Edwin August in a Powers film. Two funny Crystal comedies are An Up-to-Date Crook and Her Cousin Bill.

lots in favor, the vote being 328, Yes; 157, No.

There was a deal of hustling by those interested in the project, both for and against and a representative vote was gotten out. Automobiles figured to a great extent in getting the voters to the polls and were rushing about the city during the hours that the polls were open, from 9 a. m. to 3 p. m. Both sides put in some hard work, but before the polls were closed, well posted and close observers felt satisfied that the majority would be for buying, and their predictions proved correct. The vote was announced within a few minutes after the polls were closed. Mayor Masdonald was observed at the ballot box, with Herman G. Carver and George Potvin acting in their official capacity of registrars and city clerk F. W. Seward and Leon T. Wilson as counters.

As a result of the vote on Juesday, \$6,000 is available for the purchase and equipment of a modern automobile fire truck, with chemical extinguishers and other apparatus. A careful investigation will be made as to the merits of

other apparatus. A careful investiga-tion will be made as to the merits of various machines before a decision to buy one is arrived at, but it is believed that the purchase will not be delayed any great length of time.

THE MARINES. In time o' peace their only job is bein' trim an' neat—
The coppers of the battleship, the loaders of the deet—

Of makin' fame he ups an' yells, "Abolish the marines!"
But long before the first big gun rips out its beliowin' roar.

And while that cheerin' 's goin' round —three cheers for the marines!
